DETAILED ACTION

1. This communication is in response to the application filed 19 January 2001. Claims 1-34 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, drawn to selecting parties to an arrangement between a requester and a satisfier in the healthcare field, classified in class 705, subclass 2.
 - II. Claims 15-34, drawn to selection of parties to a transaction and requesting quotes between a buyer of goods or services and a seller, classified in class 340, subclass 825.26.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I has separate utility such as a computer implemented system or method particularly adapted for a health care management or delivery organization, and Invention II has separate utility such as transmission of information such as a display of stock quotations over communication lines. See MPEP § 806.05(d).

Art Unit: 3626

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
